Re: Lot Clearing
Date: August 10, 2020

Jesse West has offered to clear the town lot of dead trees at no expense to the town. The trees will be cut, cleared, chipped and blown into a location that can be covered with a tarp so that the chips can be used at a later date.

This will include:

- 10-12 totally dead trees of up to 18" diameter (these trees have all been marked on the property with an orange "X")
- 2 larger trees of more than 18" diameter that will be cleared of dead limbs, while the canopies are retained
- 1 larger tree of greater than 18" diameter will be trimmed of an unhealthy and heavy "arm" protruding from the right hand side in order to improve the health of the tree
- sumac bushes beside the leach field

We request that a written permission to do this clearing be given to Jesse West in order to do this work.

No healthy trees will be cut.
