# Message from the Director

The mission for New London Hospital EMS is to save lives as we provide immediate 9-1-1 ambulance transport for 7 communities in the Lake Sunapee region while also providing emergent inter-facility transport for our patients at New London Hospital who require advanced procedures only available at larger hospitals.

I am proud to head a talented group of hospital-based EMS professionals. We cover approximately 250 square miles in our seven towns with a population of over 15,000. We cover a fleet of ambulances and respond to approximately 2,000 calls annually.

To help advance EMS, we are proud to be an early leader in Mobile Health with its new concept in pre-hospital care works closely with other disciplines in New London Hospital to ensure our patients and staff are safe in their homes and to prevent hospital readmissions and always strive to deliver the best EMS patient

Thank you,

John Ribey  
Director of EMS  
New London Hospital
